

Day 2: Exercises

Exercise 1

Create a table books with: book_id (primary key), title (must have a value), author, year (whole number).

Exercise 2

Add a rule to books so year must be greater than 1400. (Hint: DROP and CREATE again.)

Exercise 3

Add a column isbn to books. It should be TEXT.

Exercise 4

Delete the books table.

Exercise 5

Create a table reviews: review_id, product_id (points to products), rating (1 to 5), comment.

Exercise 6

Test reviews: try to add a review with rating 6. What happens?

Exercise 7

Test reviews: try to add a review for product 50. What happens?

Exercise 8

On paper: draw the 4 webshop tables as boxes and draw arrows for each foreign key.
